LIST OF MEMBERS (ALPHABETHICAL ORDER)	
NAME - COUNTRY - ADDRESS - E-MAIL	
See annexe 1	
SUBJECT/S 2011-2014 /	
In order to explain what we are planning for the future I enclose the Quantification of what we did during the last triennial plan 2009 – 2011. At the moment we continue on the same way and will discuss the content with the executive members of the Public Health Group. See Annexe 2 Our goal In spite of the differences in culture from different countries which we represent, there is a universal need to provide affordable and cost effective, sustainable facilities in which quality healthcare can be delivered in a safe and healing environment. How do we work? International Seminars combined with hospital visits held each year in another UIA member country seem to be very effective. In order to discuss future goals the focus has to be adapted to actual topic subjects, however always keeping in mind sustainability, lifecycle economy and healing environment . It is also important to reserve time within the Group actually present during a seminar. Decisions are made in during the UIA-PHG annual meetings.	

TYPES OF EVENTS FORSEEN FOR THE IN THE TRIENNIAL PERIOD 2011-2014 - :		
NR. 3a	TYPE	International seminar at the moment there are 120 participants

	DATE	Executive members meetings during the next 3 years
	PLACE	
	THEME	There is quite a lot to be said about this subject because it would be directly linked with The interest of potential sponsors
NR. 17	TYPE	
	DATE	
	PLACE	
	THEME	

PUBLICATION OF A NEWS LETTER

Official Newsletters are formulated by the director (at least 1 after each seminar and one concerning the WHO day) There are separate Newsletters formulated by the organisation of the coming seminar but distributed over the same channel.

CREATION OF AN INTERNET SITE

The web site is existing however requires an updating at least once per month. (see also Point 2 in the quantification of the last triennial period. A discussion should be held during the annual meeting in Oslo.

Internet ADDRESS SITE : www.uia-public-health-group.org

LINK WITH OTHER WEB SITES

There are a number of links already established directly on our web site under links. If they are used I don't know.

LINKS WITH NATIONAL, REGIONAL, INTERNATIONAL ORGANISATIONS /

See point (8-14 above)

Such contacts and good relations become more and more important because there are too many small and also very big organisations doing precisely the same as we do.

LINKS AND JOINT ACTIVITIES WITH OTHER UIA WP'S

See point (13 above)

We need time for a discussion among the directors of the UIA Work Programmes to learn more about the other WP's and to discuss eventual collaborations. We have started already with:

- **Architecture for all**
- **Disasters**

PROVISIONAL OR EXISTING SPONSORING

I have made an effort and learned a lot, however with a negative result up to the moment. I hesitate at the moment hoping not to repeat the same errors again.
